Mississippi Coast Special Needs Soccer Association
www.mcsnsa.org

Ages 3 to Adult. All types of special needs/disabilities…
from ADD and Autism, to walkers and wheelchairs!

Teams are formed based on ability level, not by age alone. Volunteers are available for all players, even for one-on-one assistance when needed.

Our season is in the Fall, and runs approximately ten weeks. A registration period is held in mid August, after flyers have been distributed through the schools. Registration information and forms are available on our website.

Practice is held on Tuesday evenings; games are on Saturday mornings. All events take place at Bobby Eleuterius Recreational Complex in D'Iberville. It is located on Brodie Road, approximately 2 miles off of I-10 Exit 44 (Cedar Lake). Our soccer fields are inside a large fenced area.

Volunteers are needed, and should sign up during the player registration time. MCSNSA and Mississippi Soccer Assoc. offer a free training clinic for our volunteers, covering basic soccer skills and Special Needs information. In an effort to keep cost to a minimum for our players and their families, **sponsorship and donations are always appreciated!**
